**Address**

## About Me

I'm a mobile developer with around 4 years of experience working with Flutter, React Native, and native Android. I've built and maintained cross-platform apps for both iOS and Android, focusing on clean code, smooth UI, and solid performance. I enjoy solving real-world problems through mobile tech and always try to keep up with new tools and best practices. Whether it's building something from scratch or improving an existing app, I care about writing code that's easy to maintain and works well for users.

## Skills

- Flutter
- React Native
- Flutterflow
- Android (.java)
- Node.js
- SQL
- Project Lead & Management
- Client Management
- Third party SDK Integrations

## Rewards
